**Product Certification Scheme – Fire Safety Product**

- ISO/IEC Type 1b Certification scheme consisting of type test of a sample of the product representative of production and subsequent batch inspection
- ISO/IEC Type 2 Certification scheme consisting of type test of a sample of the product representative of production and subsequent market surveillance
- ISO/IEC Type 5 Certification scheme consisting of type test of a sample of the product representative of production; initial audit of factory quality management system; and subsequent periodic surveillance of the factory quality management system and samples of the product.
