

# Scale new heights with us

## IRATA Member

SETSCO is a member of IRATA since 2022 and our rope access technicians are capable and well trained in accordance with IRATA's requirements.

## Safety First

Safety is the utmost important aspect when performing rope access and we put great effort during Risk Assessment to identify potential hazards and establish suitable Safety Method Statements. We place the highest priority on the safety of our technicians.

## Quality Assured

Our qualified and competent rope access technicians are committed to assuring accurate and reliable inspection services at all times. We desire to provide the best customer service to our clients.

## Complementary Services

SETSCO is able to provide a suite of other inspection and testing services that involve rope access. This includes Advanced NDT, Conventional NDT, API Inspections and maintenance services for a wide variety of industries like refineries, chemical plants and storage facilities among others.
